

Annual dinner - I think it should be recorded that the target support level for the dinner was set at \$10/plate, and the price for the event at \$32.

March event is to be a session on driving techniques, as an introduction to what participants further learn about at driving schools.

>>Not really, it will be a class room session with a Q&A on everything from basic technique to what happens at a driving school with the emphasis on Better Driving in general and a sell to those in attendance to come to a school.

Sprockets/January - I think this was to be 1/19, as in 3rd Sunday (just a little confusion translating the meeting notes, I'll bet). **>>>The 19th is what I have in my notesbothe for the meeting as well as sprokets.**

The new award approved by the Board (4.D.) - is that same as what's mentioned in 4.H. about the outstanding member and vendor?

The rest looks good to me.
Fred
