

David - A few corrections (typos don't count)-

In my financial report:

- the expected \$4500 net profit from the June driving school was *before* the split with Missouri Valley, which is 2/3 Iowa and 1/3 Missouri Valley.
- The Sept school is expected to have at least a similar net profit in total as the June school, but no forecast for what percentage will come to the club.

In Upcoming Events:

- Sept school - 80 students expected between Iowa, Missouri Valley, *and Great Plains*.

Has Boris Said officially gone over to the dark side, or is it just a wish on his part as yet??

Fred
